

# Cromwell Primary School

## Examples of how the Additional Entitlement to Enrol arrangement (grandparenting) would work

The Ministry is considering an Additional Entitlement to Enrol arrangement, commonly known as ‘grandparenting’ for Cromwell Primary School (CPS). These scenarios are provided to help show how grandparenting will work in practice. Please note these are not real family examples – created only to demonstrate how the grandparenting clauses work.

Note – the time of enrolment refers to the time the new student will start school and begin attending. Most families complete enrolment forms ahead of this time, in anticipation of attending. This is an intention to enrol, but enrolment does not start until the time the student is ready to start attending school.

### Scenario 1 – CPS family currently living in an area that will be removed from the current scheme

Family A lives in Wooing Tree Avenue. They have a son – Jack – enrolled at Cromwell Primary School in Year 3. They also have a 4-year-old daughter, Hannah, who will be starting school in August 2024.

To determine if grandparenting applies, Family A will have to be able to answer ‘yes’ to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Cromwell Primary School	Yes – Hannah lives in Wooing Tree Avenue which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Cromwell Primary School at the time the amended enrolment scheme was implemented (expected to be mid 2024 – exact date to be confirmed)	Yes – Hannah’s sibling Jack was enrolled at Cromwell Primary School at the beginning of 2024.
The sibling already enrolled at Cromwell Primary School, at the time the amendment is implemented (expected to be mid 2024) lives inside the home zone as it was <b>before</b> the amendment	Yes – Jack lives at Wooing Tree Avenue which is inside the home zone as it was in early 2024, before the amendment.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	Yes – in August 2024 when Hannah enrolls (ie starts school), she is living in Wooing Tree Avenue which was part of the home zone before the amendment.

Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?

Yes – Jack will be Year 4 in 2024 and will still be attending Cromwell Primary School when Hannah enrolls in August 2024.

In this case, grandparenting will apply – as Family A can answer ‘yes’ to all questions.

Hannah could also enrol at Goldfields School, as she lives in the home zone for this school.

## Scenario 2 – Cromwell Primary School family currently living outside the enrolment scheme home zone

Family B lives in Bell Avenue since 2023. They have a daughter, Lexi, enrolled in Year 4 at Cromwell Primary School. Family B previously lived in Vintage Street when Lexi was enrolled. Lexi has a brother, Lochie who will start school in October 2024.

To determine if grandparenting applies, Family B will have to be able to answer ‘yes’ to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Cromwell Primary School	Yes – Lochie lives in Bell Avenue which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Cromwell Primary School at the time the amended enrolment scheme was implemented (expected to be mid 2024 – exact date to be confirmed)	Yes – Lochie’s sibling Lexi was enrolled at Cromwell Primary School at the beginning of 2024.
The sibling already enrolled at Cromwell Primary School, at the time the amendment is implemented (expected to be mid 2024) lives inside the home zone as it was <b>before</b> the amendment	<b>No</b> – Lexie lives in Bell Avenue which is outside the home zone as it was in early 2024, before the amendment.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	-
Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?	-

Because Family B answered ‘no’ to a question above, the Additional Entitlement to Enrol arrangement (grandparenting clause) would not apply to them.

As Lochie is living outside of Cromwell Primary School home zone at the time of his enrolment, if he wanted to attend this school, would need to apply to enrol as an out of zone student. The number of spaces (if any) available for out of zone enrolments is determined by the School Board. If there were places available, and Lochie’s application was received in time, he would be in the first priority of out of zone enrolment due to the school not operating a Special Programme and he is a current sibling of a Cromwell Primary School student.

Lochie will be entitled to enrol at Goldfields School as he lives in the home zone for this school.

### Scenario 3 – CPS family that moves out of the current enrolment scheme home zone

Family C live in Magnum Drive. They have purchased land and are building in Clyde. They will move into their new home in August 2024. Family C have a daughter, Pania, who is in Year 4 at Cromwell Primary School. Their son, Tane, will start school in September 2024.

To determine if grandparenting applies, Family C will have to be able to answer 'yes' to all the questions in the table below:

Criteria to be met	Yes or No?
New student enrolling lives outside the amended home zone of Cromwell Primary School	Yes – Tane will live in Clyde which is outside the amended home zone
New student enrolling has a sibling who was enrolled at Cromwell Primary School at the time the amended enrolment scheme was implemented (expected to be mid 2024 – exact date to be confirmed)	Yes – Tane's sibling Pania was enrolled at Cromwell Primary School at the beginning of 2024.
The sibling already enrolled at Cromwell Primary School, at the time the amendment is implemented (expected to be mid 2024) lives inside the home zone as it was <b>before</b> the amendment	Yes – Pania lives at Magnum Drive which is inside the home zone early in 2024.
New student enrolling lives in the home zone as it was before the amendment, at the time of their enrolment	<b>No</b> – in September 2024 when Tane enrolls (ie starts school), he is living in Clyde which is outside the home zone before the amendment.
Will the sibling (currently enrolled child) still be enrolled and attending the school when the new student is enrolled at the school?	-

Because Family C answered 'no' to one of the questions above, the Additional Entitlement to Enrol arrangement (grandparenting clause) would not apply to them.

As Tane is living outside of Cromwell Primary School home zone at the time of his enrolment, if he wanted to attend this school, would need to apply to enrol as an out of zone student. The number of spaces (if any) available for out of zone enrolments is determined by the Board of Trustees. If there were places available, and Tane's application was received in time, he would be in the first priority of out of zone enrolment due to the school not operating a Special Programme and he is a current sibling of a Cromwell Primary School student.

Tane will be entitled to enrol at Clyde School as he lives in the home zone for this school.
